KOOTENAY.

HILE the Klondyke is in Canada the fact must not be overlooked that more than the equal of the Klondyke is in British Columbia, and in that section that is easy of access, viz: East and West Kootenay, whose famous mines are daily proving by the largely increasing ore shippments ample evidence of the untold riches of that vast region. (see index end of book)

To develope the Kootenay Country railways and cheap means of transportation are needed, and for the Coast to receive the just benefit that is sure to come Westward from that vast interior mining region, a direct line of railway is most urgently required to be constructed from the Coast to the Kootenay Country. This important question it is hoped will receive the careful attention of both the Dominion and the Provincial Government at an early date. In the matter of the Klondyke it looks as if it were an other feature in the fact that the grass grows green at a distance and that the great attention that is now being drawn to the Klondyke section to the possible overlooking of the vast Kootenay Country may be only an illustration of that old saying ("the grass grows green") etc., and that British Columbians should devote all their energy to develope that which we now have well within our grasp and not rest until every facility for transporting the vast ore yield of Kootenay is an accomplished fact.

Kootenay well developed means untold millions added to the wealth of this famous Province.

BRITISH COLUMBIA DIRECTORY, 1897-98.

of May. Here Mr. McConnell stayed behind, for the purpose of getting Indians and canoes to enable him to make a micrometer survey of the Stickine from the end of the line measured by Mr. J. Hunter in 1877, to Telegraph Creek, while I proceeded up the river by the first steamer of the season to Telegraph Creek, the head of navigation. From this place goods are carried by pack animals to Dease Lake, the centre of the Cassiar Mining District, and here again a delay of several days occurred, as the animals had not been brought in from their range or shod for the season's work at the date of our arrival. Finally on June 5th, of our arrival. Finally on June 5th, we reached the head of Dease Lake, and found the greater part of the lake still covered with ice. It was not till the 9th that we were able to reach the point on the shore near Laketon, at which two men, previously sent on in advance with an Indian packer, were sawing lumber for boats. Seven days were here busily employed in this work and in constructing three boats for the and in constructing three boats for the purposes of the expedition. On the evening of the 16th, a strong wind having broken up the remaining barrier of ice, we reached Laketon with our boats, Mr. McConnell, with a crew of five Coast Indians intended for my work on the Upper Laird, having meanwhile joined us. On the 18th, having meanwhile joined us. completed our supplies and outfit at Laketon, we left that place, and on the 23rd reached the "Lower Post," at the confluence of the Dease and Laird Rivers. Here Mr. McConnell, with one

ers. Here Mr. McConnell, with one boat and two men, separated from us for the purpose of surveying and geologically examining the Lower | "" On leaving the confluence of the Dease and Laird, my own party included, besides myself, Mr. McEvoy, Messrs. L. Lewis and D. Johnson, engaged at Victoria, two Tshimsian and three Stikine (Thlinkit) Indians, all good boatmen. Two local Indians hired as guides, and to help in portaging, deserted a day or two after engaging, and from the "Lower Post" to near the confluence of the Pelly and Lewes, for an interval of more than six weeks, we met neither whites nor Indians.

The ascent of the Liard and Frances ivers to Frances Lake proved unextedly difficult and todious the rivering swiff

bad canyons having to be passed through. Frances Lake was reached on the 8th of July, and after spending a few days in examining and maping the lake, making the observations necessary to fix its position, and in the endeavour to find some Indian trail by which we might travel across to the Pelly, we began the work of portaging on the 17th.

As we had been unable to discover any route now in use by the Indians, and no trace whatever remained of the trail employed by the Hudson's Bay Company, in former years; and, further, as no local Indians could be found to act as guides or to assist in carrying our stuff, it was evident that the crossing of this portage (which had been estimated by Mr. Campbell at about 70 miles in length) would be a difficult matter, and that we might indeed find it impossible to carry over a sufficient supply of provisions for work on the Pelly. We therefore constructed a strong log cache on the shore of Frances Lake, and left there, to be taken to Dease Lake by the Indians when they returned, everything we could possibly dispense with. Had we been unable to effect the portage, there was in our cache a sufficient supply of provisions to enable the whole party to return to the "Lower Post." After a very toilsome journey we were, however, so fortunate as to reach the bank of the Upper Pelly on the 20th of July, with still nearly a month's provisions for four persons, our instruments and a small camping outfit, a canvas cover from which a canoe might be constructed, and the tools and nails for building a wooden boat, should that prove to be necessary. Our Indians, who had for a long time been very uneasy because of their distance from the coast and the unknown character of the country into which they had been taken, were here paid off, and to their "reat delight allowed to turn back."

The main geographical results of the Yukon expedition, in so far as those are covered by the present report, are best shown by the accompanying maps, which may be compared with previous maps of the same region. Mr. Ogilvie's instrumentally measured line from the head of Lynn Canal to the intersection of the Yukon or Pelly by the 141st meorm a sufficiently accurate

Baggage to Auy Part of the heir Waggenc and Carriages lit Beats and Trains

base for further surveys. In addition to this we now have an instrumental survey of the Stikine from its mouth to the head of navigation (Telegraph Creek), which is connected with Dease Lake by a carefully paced traverse. This is continued by a detailed running or track survey following the lines of the Dease, Upper Liard and Pelly Rivers, and connecting with Mr. Ogilvie's line at the mouth of the Lews, the total distance from the mouth of the Stikine to this point by the route travelled being about 644 miles. Adding to this the distance from the mouth of the Lewis back to the coast at the head of Lynn Canal (377 miles), the entire distance travelled by us during the exploration amounts to 1,322 miles. This, taken in connection with the coast line between the Stikine and Lynn Canal, circumscribes an area of about 63,200 square miles, the interior of which is still, but for the accounts of a few prospectors and reports of Indians, a terra incognita. The same description, with little qualification, applies to the whole surrounding region outside the surveyed circuit, but much general information concerning the country has been obtained, which will facilitate further

The region traversed by the routes just mentioned, including the extreme northern part of British Columbia and the southern part of the Yukon District (as previously defined), is drained by three great river systems, its waters reaching the Pacific by the Stikine, the Mackenzie (and eventually the Arctic Ocean), by the Liard, and Behring Sea, by the Yukon. The south-eastern part of the region is divided between the two first named rivers, whose tributary streams interlock, the Stickine making its way completely through the Coast Ranges in a south-westerly direction, while the Liard, on a north-easterly bearing, cuts across the Rocky Mountains to the Mackenzie Valley. The watershed separating these rivers near Dease Lake has a height of 2,730 feet, and both streams may be generally characterized as very rapid.

explorations.

To the north-westward, branches of the Stikine and Liard again interlock with the head-waters of several tributaries of the Yukon, which here unwater the entire great area enclosed against side by the Coast Ranges, by the Rocky Mountains. As the general direction of this line of watershed is transverse to that of the main orographic ridges of the country, it will probably be found, when traced in detail, to be very sinuous. The actual watershed, between the Liard and Pelly, but on our line of route, was found to have an elevation of 3,150 feet, but it is, no doubt, much lower in the central portion of the region between the Rocky Mountains and Coast Ranges.

To the north of the Stikine, at least one other river, the Taku, cuts like it completely across the Coast Ranges, but its basin is comparatively restricted and little is yet known of it.

It will be noticed that while the several branches of the Yukon conform in a general way to the main orographic axes, the Stikine and Liard appear to be to a large degree independent of these, and to flow counter to the direction of three mountain ranges.

The region as a whole, being a portion of the Cordillera belt of the west coast, is naturally mountainous in general character, but it comprises as well imporant areas of merely hilly or gently rolling country, besides many wide, flat-bottomed river valleys. It is, moreover, more mountainous and higher in its south-eastern part—that drained by the Stikine and Liard—and subsides gradually, and apparently uniformly, to the north-westward; the mountains at the same time becoming more isolated and being separated by broader tracts of low land. The general base level, or height of the main valleys, within the Coast Ranges, thus declines from about 2,500 feet to nearly 1,500 feet at the confluence of the Lewes and Pelly Rivers, and the average base level of the entire region may be stated as being a little over 2,000 feet.

Disregarding minor irregularities, it is found that the trend of the msin mountain ridges and ranges shows throughout the entire region here described a general parallelism to the outline of the coast. In the south-eastern and more rugged tract, the bearing of such ranges as are well defined is north-west by south-east, while beyond a line which may be drawn between the head of Lynn Canal and Frances Lavithe, trend

COMSTAI

PREFACE.

The Williams' British Columbia Official Directory has been for so many years an important factor in Provincial commercial circles that an introduction at this date is almost superfluous. Started in 1882, when only about 6,000 names could be gathered together, which were with difficulty obtained in consequence of the very sparce population then resident in the Province.

The work has grown to such an extent that the present issue contains over eight times the number of names the first issue had. This fact illustrates clearly a steady increase in population, coupled with the growth of the vast lumbering, fisheries, and many other thriving industries, along with the largely increasing yield of gold, and other precious metals, are all indicative of the satisfactory progress that the Province is at present making, commercially, manufacturing, in agriculture and in her mines. From the vast northern possessions at the head waters of the Yu-

kon, in the North-West Territory of Canada, to golden Kootenay on the south and east, and traversing Vancouver Island from north to south, is one vast mineralized bed of gold-bearing rocks and alluvial deposits. The ore in many sections on the surface is known as low grade, of such are some of the most celebrated mines in the world, but with modern improved appliances thousands of claims will become profitable gold producers, as proven by a number that are now paying their fortunate owners most handsomely. To bring great numbers of most promising prospects that have been discovered up to the standard of paying mines both capital and labor are required, and as both are now being attracted to this country of wonderful resources, British Columbia will prove herself to be the banner Province of the Dominion.

Province of British Columbia.

British Columbia has an erea of 390,-344 square miles, and a population, according to the last official census, of 98,171, made up of 54,061 whites, while the white population since 1832 has more than doubled-35,202 Indians and 8,010 Chinese. The Province is a great quadrangle of territory, 700 m'les long by 400 wide, lying north of Lat. 49 deg., and west of the central core of the Rocky Mountains, extending along the Pacific coast as far as Lat. 55 deg., and including a large number of adjacent islands. Striking inland to Lat. 60 deg., it is shut off from the seaboard by a narrow strip of Alaskan territory, and is bounded on the east by Lat. 120 deg. The great mountain ranges of the Province-the Rockies and Selkirks on the east and the Coast and Island Ranges on the west-exercise a very important influence upon the country, climatically as well as commercial'y. There is no mountain scenery in the world to compare with that of British Columbia, nor are better facilities anywhere afforded of enjoying it.

Mineral and Other Resources of British Columbia.

In the depths of these magnificent ranges are vast stores of mineral wealth. The gold mines of the Fraser, Omenica, Cassiar and Cariboo Districts, the gold, silver and copper mines of East and West Kootenay, the vast territory of the Yukon Basin to the north, the great coal deposits found and being worked, both on the Mainland and Vancouver Island, are not only suggestins, but striking ones, of what I'es behind, and are bound to prove the chief factors in the future development of the Provi se. As an example of what capital can do in developing the varied and wonderful resources of this magnificent country, the total salmon pack of 1876 amounted to 9,874 cases, while that of 1807 was over 1.000,000 cases. Fifty million dollars worth of gold was taken in a few years from the rich Fraser and Cariboo alluvial deposits, while the yield from the quartz mines of the East and West Kootenay are steadily increasing, while in other vast sections of the Province are found gold and silver in paying quantities. For general information relating to the unto'd riches, that only require the hand of industry, aided by capital, to develop innumerable industries that will become profitable from the start, the reader is referred to the various Government reports, and the reports of the British Co'umbia Board of Trade, as it is rather beyond the limits of this work to go fully into this question. For the addresses of the various secretaries of the Boards of Trade the reader is referred to the alphabetical lists under the heading "Board of Trade."

See Klondyke in index.

VICTORIA TRANSFER CO. Ltd.

al & 23 Broughton Street, Telephone 129. BRITISH COLUMBIA DIRECTORY, 1807-08.

THE YUKON-THE KLONDYKE.

The following information is taken from Processor Dawson's Report* on the exploration of the Yukon District, North-West Territory of Canada (comprising the Klondyke and other sections of that vast territory). Although not a part of British Columbia, but lying immediately to and adjoining the Province on the north, it is of the utmost importance that every possible utmost importance that every possible information should be given to the pub-lic about this vast and almost unknown

lic about this vast and almost unknown region.

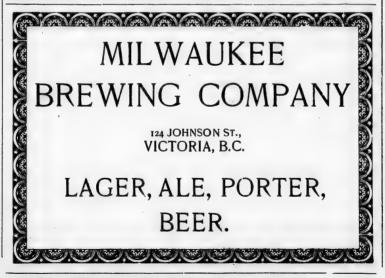

This tract is bounded to the south by the northern line of the Province of British Columbia (Lat. 60°), to the west by the eastern line of the United States' Territory of Alaska, to the east by the Rocky Mountain Ranges and 136th meridian, and to the north by the Arctic Ocean. The region thus generally defined is referred to as the Yukon district, this name being rendered ap-

propriate from the fact that the greater part of its area lies within the drainage basin of the river of that name.

The Yukon district, as above defined; has a total area of approximately 192,000 square miles, of which, according to the most recent information, 750,768 square miles is included in the watershed of the Yukon. The superficial extent of the district may perhaps best be realized, when it is stated that it is tent of the district may perhaps best be realized when it is stated that it is nearly equal to that of France, greater than the United Kingdom by 72,300 square miles, ten times the area of the Province of Nova Scotia, or nearly three times that of the New England States. It is unnecessary to add that the present report must be considered merely as a first contribution to our

We left Ottawa on the 22nd of April, 1887, travelling by the Canadian Pacific Railway to Victoria, but in consequence of irregularity in the sailing dates of the Alaskan mail steamers, were unable to reach Wrangell, at the mouth of the Stikine River, where our work may have said to have begun, till the 18th

.

The Coast Ranges, with an aggregate average width of about eighty miles, the whole of which is closely set with high, rounded or rugged mountains, constitute the most important orographic uplift in the entire region, and here reproduces geographically and geologically the features characteristic of it in the more southern portion of British Columbia. Beyond the vicinity of Lynn Canal, this mountain axis runs behind the St. Elias Alps, ceasing to be the continental border, and may be said to be entirely unknown, as any indications of mountains which have appeared on this part of the map are purely conjectural. Notwithstanding the great width of the Coast Ranges, it is not known that any of their constituent mountains attain very notable altitudes, but it is probable that a oreat number of the peaks exceed a height of 8,000 feet. These ranges are composed of very numerous mountain ridges, which are not always uniform in direction, and, so far as has been observed, there is no single culminating or dominant range which can be traced for any considerable distance.

The mountain axis next in importance to that of the Coast Ranges is that which forms the water-parting between the Upper Liard and Yukon, on one side, and the feeders of the main Mackenzie River on the other. This represents the north-western continuation of the Rocky Mountains proper. Its eastern ridges were touched on during the present exploration in the vicinity of Frances Lake and the head waters of the Pelly River, and are there designated the culminating range of a number of more or less exactly parallel ridges, and summits in it attain heights of from 7,000 to 9,000 feet. It has, however, been traced to a comparatively limited distance only, and it appears probable that a very complicated mountain system remains to be worked out in this portion of the region.

A third notable rountain axis, which I have designated on the map as the Cassiar Range, is cut through by the Dease River in its upper course, and further to the north-westward appears to form the line of water-parting between the tributaries of the Upper Liard

and those of the branches of the Yukon. Peaks near the Dease, in this range, exceed 7,000 feet, but it is probable that none much exceed 8,000 feet, and that the range in a general way becomes lower to the north-westward.

In the north-western and less elevated moiety of the region, the mountain ranges and ridges are in general lower and become discontinuous and irregular, or while retaining a general parallelism, assume an overlapping or echelon-like arrangement.

In each of these mountain chains above described granitic rocks appear in greater or less force, as more fully noted on succeeding pages. In the intervening and subordinate mountain systems of the south-east, granitic axes are not found and do not exist as prominent features.

Scarcely anything is known of the character of the country drained by the Macmillan, Stewart and White Rivers, but it is probable that the basins of the two first named streams closely resemble that of the Upper Pelly, which is described in following pages. Miners who have ascended the Stewart for a hundred miles or more, report the existence of a continuous range of mountains of considerable height, which runs parallel to the river on the north, from a point about fifty miles from its mouth onward. The absence of tributaries of any size along the south-west side of the Lewis below the Tahkheena, with the general appearance of the country in that direction, so far as it has been overlooked, seems to show that the basin of the upper portion of the White River must be comparatively low, and situated as it is within the St. Elias Alps, this country must possess most remarkable features, both geographically and from a climatic point of view, and well deserves exploration. It would further appear to be nearly certain that the sources of the Tanana River are to be looked for in this district, well to the east of the 141st meridian.

The topographical features of the entire region here described have been considerably modified by the events of the glacial period, and the changes produced at that time have more particularly affected the drainage-basins and

Rock Bay Lumber Mills

ictoria, B.C.

fravel by the Palatial Ganadian Pacific Navigation Go. Ltd.

Canadian Pacific Navigation Co., Ltd

by the Palatial

the courses of the various streams. The valleys and lower tracts of country are more or less completely filled or covered by extensive deposits of boulder-clay, gravel, sand and silt laid down during that period. To these deposits are due the flat floors of the larger velleys, and also to a great extent the ap-pearance which the more irregular mountain regions present of being partly submerged in level or rolling party submerged in level of rolling plains. Many changes in direction of flow in river valleys have doubtless also been produced during this period, though most of these yet remain to be worked out. The general result has been to produce systems of "inconsequent" drainage wherever the natural closes of the country areas and the slopes of the country are easy and the limiting ranges irregular. Most of the rivers at the present day have done little more than cut out new channels in the glacial debris, touching only here and there upon the subjacent rocky floor.

While the available information as to the climate of the northern portion of British Columbia and the Yukon district is necessarily as yet very imperfect, its general features are sufficiently obvious, repeating as they do those met with in the similarly circumstanced region to the south, with such modification as is produced by their higher latitude. The coast and coastward slopes of the Coast Ranges constitute a belt of excessive humidity and great precipitation, with somewhat equable temperatures, while the interior region to the eastward of these ranges is relatively dry, with a temperature of extremes.* In the interior, however, the climate is largely influenced by the altitude of each particular district, and in conse-quence of the general lowering of the country beyond the 60th parallel (constituting the north line of Briish Co-lumbia), it is certain that the climatic conditions are there much more favourable than in the Cassiar district.

The mean annual temperature of the coast region is considerably higher than that of the interior; yet, in consequence of the great depth of the snow-fall and persistently clouded character of the skies, the Coast Ranges are found to support numerous and massive glaci-

ers, while these are almost or altogether absent in the Cassiar Mountains, in the mountains about Frances Lake an in the other ranges seen by us in the in-terior. The heavy accumulation of snow upon the Coast Mountains and in their valleys retards the progress of spring, as is very clearly evidenced on the Stikine, and explained more fully elsewhere.

The depth of snow in winter continues to be inconsiderable or moderate, at least as far down the Pelly (Yukon) as the mouth of the Stewart River and Forty-Mile Creek, while at Nulato, on the lower river and in a similar latitude. but 500 miles further west, the depth of snow from April to November is said to average eight feet, and often to reach twelve feet.* Mr. Dall also writes: "The valley of the Lower Yukon is somewhat foggy in the latter part of summer; but as we ascent the river the climate improves, and the short season at Fort Yukon is dry, but pleasant, only varied by an occasional shower."

At Telegraph Creek and in its vicin-

ity on the Stikine, to the east of the Coast Range (lat. 58°), wheat, barley and potatoes are successfully grown with the aid of irrigation.

Taking into consideration all the facts

which I have been able to obtain, as well as those to be derived from an examination of the natural flora of the country, and the observed advance of vegetation, which, in the absence of actual experiments, are capable of af-fording valuable data, I feel no hesita-tion in stating my belief that such hardy crops as barley, rye, turnips and flax can be successfully cultivated in the Yukon district as far north as the former position of Fort Selkirk, near the 63rd parallel, or in other words, about 1,000 miles north of Victoria.

The black and grizzly bears roam over the entire region and are often seen along the banks of the rivers in the latter part of the summer when dead or dying salmon are to be obtained with ease. Wolves are not particularly abun-dant, but the cross, black and silver fox are more than usually common.

The smaller fur-bearing animals, being similar to those found generally in Weile

and Sitka gives a

t Reasonable kest Dispatch. the northern parts of the continent, do not require separate enumeration. The entire Upper Yukon basin, however, yields furs of exceptionally high grade. Some notes as to the quantity of furs annually obtained from the region will be found in a subsequent paragraph.

The Yukon district with the northern part of British Columbia, measured from the vicinity of Dease Lake to the intersection of the Pelly (Yukon) with the 141st meridian comprises a length of over 500 miles of the Cordillera belt of the west, which, wherever it has been examined, has been found rich in minerals and particularly in the denosits of the precious metals. The width of this particular part of the Cordillera belt is also great, as it appears, so far as our explorations have gone, to extend from the coast to the eastern ranges of the Rocky Mountains in the vicinity of the Mackenzie River. This porion of the Cordillera region, together with that of the more southern part of British cobetween 1,200 and 1,300 miles, almost equal to the length of the same metal-liferous belt contained by the United States, and in all probability susceptible to an eventual mining development equally great.

Without including the northern part of British Columbia, respecting which more has alreadby been made known, but restricting ourselves to the great area of 192,000 square miles situated to the north of the 60th parallel and west of the Rocky Mountains, which I have referred to as the Yukon district, it may be said that the information now obtained is sufficient to warrant a confident belief in its great value. Very fident belief in its great value, much yet remains to be learned respecting it, but it is known to be rich in furs, well supplied with timber, and it is traversed by a great length of navigable rivers. It is already yielding a considerable yearly product in gold, and presents every indication of a country rich wall in other metals, and including as well in other metals, and including deposits of coal. In its southern portion, situated between the 60th and 65th degrees of latitude, is comprised an area of probably not less than 30,000 square miles, suitable for eventual agricultural occupation, and presenting none of the characters of a sub-Arctic region, which

have, in advance of its exploration, been attributed to it by some writers. In attributed to it by some writers. In each of these particulars and in climate it is greatly superior to the corresponding inland portion of the territory of Alaska. It may, in fact be affirmed with little room for doubt, that the region here spoken of as the Yukon district surpasses in material resources the whole remaining particular interior. the whole remaining northern interior portion of the continent between the same parallels of latitude.

Rock Bay Lumber Mills

CITY OF KASLO.

Postmaster, S. H. Green.

Population, 1,600.

In the Dominion Electoral District of Yale-Kootenay and Provincial South Riding of W. Kootenay, Mining Recording Division of Ainsworth. It is an Incorporated City on the west side of Kootenay Lake about 40 miles from Nelson, 12 miles from Ainsworth, 18 miles from Pilot Bay and 15 miles from Sandon. Communication by steamer and Kaslo & Slocan Ry. Has post, money order, telegraph and express office; mails daily. This prosperous and rising City, which is situated in the centre of the Kootenay Gold and Silver Mining District, will become one

of the most important cities of the Province. The famous Slocan and Kaslo Silver Mines lie west about 15 to 20 miles. As a matter of fact mines are found in any direction one may wish to go from K. A railway is built from the City into the heart of the Mining region, with branches to meet the requirements of several groups of mines, and has been the most important factor in helping to build up the City, the successful carrying out of the Kaslo & Slocan Ry. project is due to its energetic owners. See heading Kaslo & Slocan Rv. The Kootenaian, of which Mr. Edward W. King is proprietor, is the newspaper sentinel that ably guides the destinies of Kaslo.

See Alphabetical List for Additional General Information.

CITY OF KAMLOOPS.

Postmaster, E. H. Jones.

Population, 1.700.

In the Dominion Electoral District of Yale-Kootenay and Provincial North Riding of Yale, Mining Recording Division of Kamloops, is an incorporated City, situated at the confluence of the North and South Thompson Rivers, and is the most important place on the Pacific Division of the C. P. R. between Calgary and Vancouver. It has an ample supply of water, and is lighted by electricity. There is a money order express, telegraph and telephone service. The Bank of B. C. has a branch in the City and everything appertaining to the comfort and convenience of a large community is here to be found. The climate is dry and bracing, and in consequence. Kamloops is a favorite resort for those who suffer from the moisture of the Coast cities. It has a bright and prosperous future and is destined to be the great interior manufacturing centre of British Columbia. The "Inland Sentinel," an influential paper, is published here,

CITY OF NANAIMO.

Incorporated in 1874. Is situated on the east coast of Vancouver Island. Ias excellent banking facilities and early every modern improvement bund in cities vastly greater in point population. Nearly opposite Vanouver, the terminus of the Canadian acific Railway, and about 73 miles orth of Victoria, with which there is tily communication over the E & N The main source of wealth of anaimo is the valuable coal deposits. addition to this there is an abunance of excellent timber and building one of the finest quality. Iron, gold id copper veins have been discovered the immediate vicinity, and arrangeents are being made for the erection a smelter. With such abundant re-urces there is a great future before e Newcastle of the Pacific Coast. mongst the most prominent incorrated institutions is the Vancouver cal Mining & Land Co. of which muel M Robins Esq. J P, is super-tendent and William McGregor maner. The harbour is safe and commoous, affording secure anchorage for ipping and excellent facilities for ays and wharves.

sessing, as it does, so many important features. The yield from the large mineralized district surrounding Nelson, is alone sufficient to build up a substantial and most important business centre. The Hall Mines, Limited, have in operation one of the largest smelters in British Columbia. Steamers ply regularly to Bonner's Ferry (Idaho), Kaslo, Ainsworth, Balfour and other important points. There are three ably conducted newspapers published in Nelson, "The Miner," "Tribune" and "Economist." Ample facilities in the way of banking, express office, telephone and many other modern conveniences are possessed by this ambitious and deserving City.

of

WESTMINSTER CITY DIRECTORY, 1807-08.

## City of New Westminster.

Situated on the north bank of the Fraser river, fifteen miles from its mouth. The Fraser is the most important river in British Columbia. It is the great waterway which reaches from the Rocky Mountains in the interior, and in its course to the ocean flows through some of the richest gold fields and most fertile agricultural lands on the continent. It is navigable as far as New Westminster and for some miles above for ocean vessels, farther up for sternwheel steamers.

The Fraser gives New Westminster a substantial advantage in this respect over any other city on the Coast. A large fleet of steamers do a lively business on the river, making regular communication with all important points, and so keeping up a steady service with Vancouver, Victoria and Nanaimo while the loading of ocean vessels with saimon and lumber forms an important feature of this port. It is the freside water terminus of the Canadian Pacife Railway and the Western terminus of the Great Northern.

The electric tram by which Vancover is connected with New Westmin ster is without exception one of the best, if not the best, service operated in any part of Canada. Every faciling enjoyed by those living in large East ern cities are to be found in New West

For banks, hospitals and general is formation see alphabetical list of res

## CITY OF ROSSLAND.

Population, 6,500.

n the Dominion Electoral District of Yale-Cariboo, Provincial North Riding of West Kootenay, Mining Recording Division of Trail Creek, an incorporated City. Eight miles from the international boundary line. From the North traffic comes by the Canadian Pacific via Arrowhead, thence by the Columbia River to Trail, from thence to Rossland by the Columbia & Western Ry., there is a connection to the South via Spokane in the State of Washington. Rossland is a marvelous City, having within the short space of 4 years grown from a dozen persons

and a few shacks to a prosperous City of 6,500, and is destined to become a very large and prosperous centre as the mining in West Kootenay which is now in its infancy, will develop to that degree that by many at the present moment would not be looked upon as possible, although the possibilities of the future of Rossland are simply limitless. The Crow's Nest Pass Ry. and the Coast K. Rr., will give Rossland a direct eastern and western connection. The mines tributary to the City will yield millions in gold as development work progresses.

See Alphabetical List for Additional General Information.

# CITY OF REVELSTOKE.

In the Dominion Electoral District of ale, Provincial North Riding of West ootenay, mining recording division of evelstoke, is a place of about 1,000 in-bitants, situated at the second cross-g of the Columbia River by the main to of the C.P.R. It is picturesquely cated on a series of beautiful level flats hich afford plenty of room for its rapy increasing business and population. is the distributing point for the Big end, Lardeau, Trout Lake and Ille-lewaet mining districts and is fast beming an important wholesale centre.
possesses churches, Anglican, Methost, Presbyterian and Roman Catholic, with resident pastors, a public school th two teachers, a Kindergarten, unr private management, telephone and ter works systems and an electric ht system is now being installed. te Dominion Government have a cold brage warehouse for the storage of

butter and other perishable goods in connection with their system of aid to the North-West creameries. It is the seat of a Gold Commissioner for West Kootenay. The C.P.R. have erected a handsome hotel near their station and there are six or seven other good hotels in the town. Passengers for Kootenay points change here to take the branch line for Arrowhead, and all freight going down is handled at this point, which is becoming one of the most important outside of the terminals on the line and is the residence of a small army of rail-way officials and employees. It is a great outfitting point for miners, and possesses numerous handsome stores, most of which do a wholesale business with the mining camps, for fifty miles around the town. There are two papers, the Revelstoke "Herald," semi-weekly and the Kootenay "Mail." weekly, both ably and enterprisingly conducted.

See Aiphabetical List for Additional General Information.

### SALMO.

Post Master, Robt. Ince.

In the Dominion Electoral District of Cariboo, Provincial South Riding of West Kootenay, mining recorder's division of Nelson. Located on the Nelson and Fort Sheppard Railway at the junction of the North Fork of Salmon River, is the centre of numerous mining claims on the Salmon River, North Fork, Lost Creek, Sheep Creek, Pend d'Oreille, and their tributaries. It is distant from Nelson thirty-five miles and from Rossland fifty-two miles; has

Victoria-Phœnix Brewing Co. Ltd.

daily trains northward to Kaslo, Air worth, Pilot Bay and Balfour, and so to Trail, Waneta, Northport, Rossia and Spokane. Salmo is located or level prairie, and has an ample sup of timber with a saw mill having daily capacity of 25,000 feet, with abdance of water power for domestic manufacturing purposes. The latest formation from the district places in mineral locations, surrounding San at about two thousand three hunds claims. For names of those residing Salmo see index.

## CITY OF SANDON.

Postmaster, E. R. Atherton.

Population, 1,200.

the Dominion Electoral District of Yale-Cariboo, and Provincial South Riding of West Kootenay, Mining Recording Division of Slocan, situated on the Kaslo & Slocan Railway, 15 miles from Kaslo. The C. P. R. forms a connection between S. and Nakusp. It has excellent banking facilities and is

situated right in the heart of the famous Slocan country, whose mines are now known the world over. "Slocan Star," "Reco," "Wonderful," "Idaho," and many others that have made vast fortunes for the fortunate owners are situated here. A valuable adjunct to S. is the newspaper possessing the most appropriate name of the "Pay Streak," published here.

See Alphabetical List for Additional Information.

## CITY OF TRAIL

Postmaster, F. Brown. Population, 1,500.

In the Dominion Electoral District of Yale-Cariboo, and Provincial North Riding of West Kootenay, Mining Re-cording Division of Trail, is a growing

City, beautifully situated at the mouth of Trail Creek on the Columbia & Western Railway, 30 miles south of Spreat's Landing, 8 miles from Rossletd, and 20

miles from Robson; while Revelsh is distant 166 miles. T. is the gas smelting centre of West Kootenay, u is destined to be one of the moti portant cities of the vast gold bear region of the Interior of British Colu bia. The City is rapidly building and possesses varied and numer advantages, and withal a thriving prosperous community.

See Alphabetical List for Additional Information.

# ANCOUVER CITY STREET DIRECTORY.

### CITY OF VANCOUVER.

From a frontier village to a splen-dly built modern city, all inside of ten ars, with well-paved streets, a magficent and inexhaustible supply of fine untain water, electric railways, elec-c lights, the shrill scream of the ran greyhounds loading and unloadg at the commodious wharves, with noise of the long train of freight passenger cars constantly coming d going, her numerous lumber mills gar refinery, and splendidly equipped indries and various other thriving dustries; beautifully built homes, sur-unded with exquisite grounds, rows massive granite buildings, are both history and a true picture of the ncouver of to-day.

The climate is most charming, ther too hot nor too cold. During summer just passed, while the resints of the Eastern Provinces were ercome with the oppressive heat, in ncouver the thermometer rarely ched more than eighty-five degrees the shade, and more frequently ged between seventy and eighty dees. The winters are most pleasant, reely ever falling as low as zero, and ally ranging about forty-five to fifty

ommercially, Vancouver at the pretime, is prospering, possibly more than any other city in this vast Doion. The only partially developed ources, upon which the substantial lasting character of the city de-ds, are varied and inexhaustible, emost amongst which are the proam or ocean and river.

ith vast mines of mineral wealth to east and north, and rare agricul-llands to the south and east and the inexhaustible fishing interests at her door, coupled with the fact of possessing a most magnificent harbour and the terminus of the longest railway system under one management in the world, and with all an energetic and appreciative people that work in harmony for their city's good, there is nothing to hinder the vast strides that Vancouver is sure to make in the near future.

For general information see alphabetical list. For provincial information see index.

PROTECTION ISLAND COAL.

**UPPER SEAM** 

This coal is similar in appearance and quality to the New Wellington, but is a superior gas coal, and for general purposes will be preferred to all other coals produced on Vancouver Island

These

coals

are

mined

by the

New B.C.

Company

only

The Company's wharfs are at Departure Bay, Nanaimo and Protection Island, at each of which ships of the deepest draft can load at all times

SAMUEL M. ROBINS, Superintendent

#### CITY OF VERNON.

Postmaster, A. J. Venn.

Population, 1.000.

in the Dominion Electoral District of Yale-Cariboo, Provincial East Riding of Yale and Mining Recording Division of Vernon, is situated on the line of the Shuswap and Okanagan Ry., four miles from its terminus on Okanagan Lake, and is the centre of one of the largest and richest agricultural districts in the Interior. Since the advent of railway communication the town has grown wonderfully and is a duly

incorporated City. There is a post, money order office and post office savings bank, also telegraph and express office, and a daily mail service. There is also a branch of the Bank of Montreal and an office of the Wulffschn banking and financial firm. Vernon is the great distributing point for the Lower Country, and in addition to its railway connections, it also controls the navigation of the Lake. An ably conducted newspaper, the Vernon "News and Okanagan Farm Live Stock and Mining Journal" is another feature of the progress of V.

### LET US BAR OUR DOORS

AGAINST

Adversity and Hard Times
By KEEPING

OUR MONEY at Home.

THE PAY ROLL IS WHAT TALKS—Puny Industries mean puny pay rolls; puny pay rolls mean hard times; hard times mean stagnation, and so on to the end.

#### The Province Publishing Co.,

Cimited Ciability

Occupying their own large buildings in VICTORIA and VANCOUVER, have the largest and most complete establishment West of Toronto and North of San Francisco. With their NEW PLANT they are able to turn out work which cannot be excelled.

They have a very large stake in British Columbia; have a large pay roll, and ask the public,by supporting them, to keep their money in British Columbia.

\*\*\*\*\*\*\*\*\*\*\*\*

STOP THAT LEAK,

Or the steady drain of our money to the United States

WILL KEEP US POOR!

THE PROVINCE BUILDINGS,

VICTORIA AND VANCOUVER, B.C.

Weiler-

VICTO

The Capital of orporated in 18 tars the centre o fterwards the proreat development the Province, a caboard, in the wa ng and fishing int inues to secure a f nercial prosperity ecially along the 8 e that marks the da on the Pacific. It is generally c oid and copper niles of the city, dded to which oted for the vast oal that are worke thile in the fertile ursuits are follow ar line is in succes ity. Communicat ashington is furi odious steamers e trade, while th ancouver is peri anadian Pacific N eamers. There a nes of large ocea ocal coasting vess oad freight and protably the C. P. rs engaged in the ese trade; the N reat Northern lin hip Company's st spanese lines.

The new Parlia The new \$1,000,000 mder the direction to the direction to the third the

ing by the Palat Humans of the . OHN INVING.

#### VICTORIA CITY STREET DIRECTORY.

See Alphabetical List for Additional Information.

The Capital of British Columbia, inorporated in 1862, was for many rars the centre of all the colonial and terwards the provincial trade. By the reat development of the vast interio the Province, as well as along the saboard, in the way of lumbering, min-ng and fishing interests, Victoria onmust to secure a fair share of the com-inues to secure a fair share of the com-ercial prosperity of the Province, es-cially along the 80c miles of sea coast in that marks the western side of Can-da on the Pacific.

ICATES.

HEQUES,

t the

L1d.

It is generally conceded that raying old and copper mines within a few alles of the city, will be one of the hany immediate resources of Victoria, dded to which Vancouver Island is oled for the vast beds of bituminous oil that are worked most successfully; hile in the fertile valleys agricultural ursuits are followed. An electric tram ar line is in successful operation in the iy. Communication to the State of Washington is furnished daily by comtodious steamers built especially for the traffic to and from the traffic to an artist the traffic to a second daily by the traffic to a sec Ancouver is performed daily by the anadian Pacific Navigation Company's tamers. There are various important nes of large ocean carriers, as well as ocal coasting vessels, that load and unad freight and passengers at Victoria, otably the C. P. Ry.'s palatial steamrs engaged in the Japanese and Chiese trade; the Northern Pacific and 
freat Northern lines; the P. C. Steamhip Company's steamers, as well as the apanese lines.

The new Parliament Buildings, costng about \$1,000,000, are just completed inder the direction of the Provincial overnment, while the magnificent ustom House and Post Office is nearng completion under the contractors cling for the Dominion Government.

The above in addition to the large number of handsome residences erected during the last two years, as well as a number of commodious brick buildings, notably that of Messrs. Simon Leiser & Co's large brick warehouse, the Bank of Montreal and Robt. Porter & Sons', have added very materially to the gen-eral substantial appearance of the Capital. While during the present season the "Colonist" Printing and Publishing Co. are erecting a handsome new printing and lithographing establishment on Broad and View streets in which they will move during the early fall.

The assessed value of property and improvements is \$16,804,735. The receipts from all sources per year reach about \$365,000. The net liability of the city amounts to \$1,824,000.

For churches, museum, theatre, halls and general information, refer to alphabetical list.

# 20 FREE ASSAYS For Gold or Silver, or both,

Will be made by the Assay Department for persons enrolling in the Metal Mining, Metal and Placer Prospectors' or Full Mining Scholarships of the International Correspondence Schools of Scranton, Pennsylvania. . . .

FIVE YEARS' EXPERIENCE has demonstrated the success of our method of Teaching Mining by Mail. Mining Engineers, Managers, Mine Foremen and Miners in all parts of the United States and Canada enthusiastically endorse these schools. We also teach Civil Engineering, Bridge Engineering, Railroad Engineering, Hydraulic Engineering, Municipal Engineering, Steam Engineering, Stationary, Locomotive or Marine; Electricity, Architecture, Architectural Drawing and Designing, Plumbing and Heating,

### **BLOWPIPING OUTFIT** THE

and CASE of MINERAL SPECIMENS, which is also sent free to Students enrolling cast of Mineral Specimens, which is also sent free to Students enrolling in the Mineral Prospectors', Metal Mining and Full Mining Courses, consists of the following apparatus and Ohemicals: Brass Blowpipe, Alcohol Lamp, Steel Forceps, Open Tubes of Hardened Glass, Closed Tubes, Charcoai, Hydrochloric Acid, Nitric Acid, Sulphuric Acid, Nitrate of Cobalt, Powdered Borax, Salt of Phosphorus, Dry Carbonate of Soda, Bisulphate of Potash, Nitrate of Soda, Blue Litmus Paper, Red Litmus Paper, Thurmeric Paper, Platinum Wire, and forty-eight specimens of Minerals, including complete sets to illustrate the scales of fusibility and hardness. It is neatly fitted into separate compartments of a handsomely finished white-wood box. With this apparatus the Student is able to make the tests described in the Instruction apparatus the Student is able to make the tests described in the Instruction Paper on Blowpiping. He also becomes familiar with the characteristics and appearance of many of the Minerals described in the Instruction Paper on Mineralogy, which enables him to recognize similar specimens in the field, and to verify by actual tests the determination made from observation. With our outfit, which can easily be carried, the careful Student can, with a few weeks' practice, learn to determine any mineral specimen by a few simple tests. Such knowledge is of great value.

### PRICES OF COURSES:

| PROSPECTING  | \$22 00 |
|--------------|---------|
| METAL MINING | 40 00   |
| FULL, MINING | 60 00   |

To which add \$4.00 to cover duty and express charges on Blowpipe Outfit.

A Reduction of 10 per cent. will be made to Clubs of three persons on above rates. The enrollers need not all reside in the same place or take the same course.

The Prospectors' Course must be paid for in advance, but the Metal Mining and Full Mining Courses may be paid for in instalments of \$10 down and \$5 monthly, by paying an increase of \$4.50 on the above rates.

# CITY OF WELLINGTON.

On the East Coast of Vancouver Island, six miles north of Nanaimo, in the Dominion Electoral District of Van-couver, Provincial of North Nanaimo, Mining Recording Division of Nanaimo. Population about 2,500. The town is divided into two parts, the older part being the property of the Wellington Colliery Co., and the new part, commonly called New Townsite. The latter is an incorporated town covering a little over eighty acres, is situated about three miles from the salt water and shipping point, which is Departure Bay, where

vessels of all sizes can be loaded at all stages of the tides. W. is the northern terminus of the E. & N. Ry. for repairing their cars. It is noted for its coal mines, the coal being supplied to all parts of the Coast and commanding the highest prices on the California market, There are two fine hotels and a number of boarding houses, four general stores, Post Office and savings bank, opera house and drug store. There are also fine athletic grounds and a quarter-mile bicycle track, the latter the fastest in B.C.

See Alphabetical List for Additional Information.

### Central Park.

Postmaster, M. M. Smith.

In the Dominion Electoral District of New Westminster, Provincial of New Westminster, is Vancouver's newest suburb and is located six miles east of Carrall St., on the boundary between South Vancouver and Burrard Inlet and Fraser River, 400 feet above the sea level. The Park comprises over 200 acres of Government land, officially set apart for public recreation grounds and acres of Government land, officially set apart for public recreation grounds and park purposes, the improved portion of which has already become a popular pleasure resort. The Presbyterian Church, grocery store, post office, telephone office, and tram station are all located near the north-west corner of the Park, and there is a large public school one-half mile west, and another one mile east of this point. Central Park has a daily mail service to and from Vancouver and New Westminster. The pure air, freedom from fogs, cheap-The pure air, freedom from fogs, cheap-ness of property and the excellent car service to and from the city make the place a most desirable residential district for those wishing a pleasant suburban home.

### Fort Simpson.

(Formerly called Port Simpson.)

Pastmaster, Chas. W. D. Clifford.

In the Dominion Electoral District of Burrard and Provincial of Cassiar, Mining Recording Division of Skeena, is situated on the northeast end of the Simshean Peninsula, in the Cassiar District, and is separated from the south end of Alaska by the Portland Inlet. It possesses a fine harbour, and at Georgetown, 7 miles distant, is a sawmill and ship building yard. A fine hospital with 20 wards has been built, also a handsome church, Church of England. Coal has been discovered in the district. The Methodist Mission have here a home and school for the Indians. Mails weekly, via Victoria, 600 miles distant.

Grand Forks.

Postmaster, L. A. Manly.

An incorporated city in the Dominion Electoral District of Yale and Cariboo, Provincial East Riding of Yale, and Mining Recording Division of Grand Forks. Is beautifully situated on Kettle River, about 8 miles from the international boundary line and close to the famous Greenwood mining camp. The "Grand Forks Miner," a weekly journal that is alive to the splendid prospects of the district, and Grand Forks in particular, is published here by Messrs. F. H. McCarter & Son. The whole district is more or less mineralized, and as development work on the numerous valuable mines in the immediate neighbourhood of Grand Forks progresses the city is bound to grow into a highly important and prosperous place, depending not alone upon her

Kelowna.

Postmaster, E. R. Bailey.

Kelowna, geographically the hub of the Okanagan Valley, is beautifully situated on the east shore of Okanagan Lake, in the Dominion Electoral District of Yale-Cariboo and Provincial of the East Riding of Yale and Mining Recording Division of Vernon, on a broad expanse of almost evel land. Mill Creek empties into the lake at this point and is fringed with a luxuriant growth of poplars, cottonwood and other trees. Further south Mission Creek fin. Is its terminus in the same lake. This is the centre of the largest area of agricultural lands in the Yale District and is called the garden town of British Columbia, from the numerous small holdings of from eight to forty acres, although there are some holdings consisting of hundreds of acres. Vegetation is very luxuriant and large crops of vegetables, hay, grain and fruits of nearly every description are successfully grown. Tobacco culture has been carried on for the past three years with marked success. Cattle and hog raising are important factors in the success of the community. The mining indus-

Bay Lumber

...LARGEST STOCK IN B.C...

BRITISH COLUMBIA DIRECTORY, 1897-98.

try, as yet in its infancy, is bound to become of vast importance in the near future. The Agricultural and Trades Association is a valued institution formed about four years ago, and last year gave an agricultural exhibition at which the best display of fruit ever collected at one place in the Province was exhibited. Communication is had to the markets of the Province, and especially with the mining districts, by the SS. "Aberdeen" of the C. P. R. service, CANADIAN PACIFIC NAVIGATION CO. making daily trips, connecting with the C. P. R. line at Okanagan Land-ing and Penticton, at the foot of Okanagan Lake. A large amount of produce has been snipped within the past three years, and the business has hardly commenced. The Kelowna Shippers' Union Co. Ltd. are the principal handlers of produce, together with individ-ual shippers, of which there are many. The industries of the Valley are represented by a saw and planing mill, which turns out all descriptions of work in that line; a grist mill; a pork packing establishment, carried on by the Kelowna Shippers' Union, which has turned out during the past season a very superior article in hams, shoulders, spiced rolls, etc. Schools are advantageously situated to suit the needs of their respective districts. Four relig-ions denominations are represented. The sporting proclivities of the inhabitants are much in evidence, there being lacrosse, cricket, football, curling and gun clubs. A brass band is successfully maintained. Fishing and shooting are excellent in the neighborhood, and altogether Kelowna is a pleasant place to live in.\*

#### CHARTER POWERS.

The Memorandum of Association has been prepared with great care, and includes every provision and power required by mining companies.

#### OBJECTS OF THE COMPANY.

The objects of the Company are principally to acquire, develop and dispose of with profit, mineral properties in B.C. and elsewhere. It is a wellknown fact that the first rise in values in mineral properties located, invariably takes place after the first dev. lopment work has been done upon them, and in many instances it has been found that the assessment work required by law has been sufficient to demonstrate their prospective value. Large sums of money are paid every day for what only a short time ago were mere prospects. It is the intention of the Company that these profits, which have been reaped largely by the original holders of claims, shall be participated in similarly by every shareholder in this company.

#### ACQUIREMENT OF PROPER TIES.

The means employed by the Compa to secure good mining properties e brace a comprehensive scheme, inclu ing every lawful and proper metho In addition to fitting and sending of a number of experienced prospectors locate claims for the Company in t leading mining districts of the Province the Company has secured reliable co fidential agents in prominent minu localities to co-operate with the Co pany, and promote its interests in su localities by:

- I. Discovering and locating new mi eral-bearing properties prospectively
- 2. By locating good claims as a nexes to well-known mining propert already developed.
- 3. By making use of such means will enable them to be informed at of

new rich "strikes" or "finds" made the vicinity.

By noting the lapses made on minproperty of value.

5. By advising the Company promptin the event of any owner of valuable roperty desiring to dispose of same ta low figure. And in general to do such things as may advance the inrests of the Company in that locality, at always under instructions from the impany. Travelling confidential rents, with similar instructions, have so been employed.

The Company by these methods is wided with exceptional opportunifor acquiring valuable properties ithout the necessity of purchasing em) second hand, and is at the same mpany.

By Directory of the Province to the Pr m at a reasonably small outlay.

ould the Company, however, deem
advisable, on account of the terms

fred, to acquire a property which
been located by other than persons the employ of the Company, the perty must in every case be report-upon and recommended by the minexpert of the Company, who shall from time to time visit and re-n upon claims located by the Com-

#### SPECIAL FEATURES.

among the special features of the mpany therefore are the following: The Company is not an ordinary ning Company whose efforts are ally confined to one claim or group claims, but its operations will ex-d throughout the entire Province

of British Columbia, and even into the territory of the Yukon.

2. The assurance that the Company will acquire, and that too at the lowest possible cost, valuable mining properties in every mining district in the

3. The further assurance that the funds of the Company will be expended in developing these properties and giving them marketable value, and not in paying "fancy" prices for properties which may have cost only a few hundred dollars to develop into a saleable condition.

4. Properties which may be acquired by purchase will only be so acquired after the most searching examination and upon the unqualified recommendation of the mining expert of the Company.

5. It is a fundamental principle incorporated in the by-laws of the Company that the Company shall not go into debt. By this provision, all liability to the shareholders is elimin-

6. All certificates of shares of stock other than Treasury Stock are placed in the Bank, and will remain in its custody until 750,000 Shares of Treasury Stock are sold

7. Every share in this Company represents an unassessable interest in all and every interest the Company may acquire.

8. Dividends, when declared, will be upon the shares actually sold, thus affording to investors the same security as to profits under a large capitalization as under a small one.

 The by-laws provide that the Com-pany's books shall be audited by an auditor appointed by the shareholders themselves.

hise features, and others which might be mentioned, are all framed with a view of securing to every shareholder a minimum of risk with a maximum of profit.

COMPANY began operations by the acquirement of the "Toutonic Mineral Claim," on the adjoining, through both of which claims a highly mineralized vein four feet in width runs. A staff fexperienced prospectors has been fitted out to prospect in the different mining divisions of Kootenay and let Cossat. Reports already received are highly encouraging. Genuine mining properties are being dissered by them at present and recorded in the name of the Company nearly every week on the Cosst and in Merior. Negotiations are pending at present whereby a large number of rich mineral properties between land and Revelstoke may be acquired. Arrangements have also been made to secure a number of rich tolaims in the Yukon. In the course of the next sixty or ninety days the Company expects to be in posmo of mineral properties of great value. The affairs of the Company are in the hands of gentlemen of high ding and reputation. They are, besides, experienced in mining matters, and every guarantee possible is teld that the Company's affairs will be managed economically and honestly, wisely and well, and with lable results to every shareholder.

Head Office of the Company is at Victoria, where application for stock will be received at present, though arrangements are being effected pidly as possible to establish branches in the Eastern cities of Canada, and the United States, and in Lon-England.

. . For further Information, Address . . .

#### Lillooet.

Postmaster, C. A. Phair.

In the Dominion Electoral District of Yale and Cariboo and Provincial West Riding of Lillooet, Mining Recording Division of Lillooet, is situated cording Division of Lillooet, is situated on the right bank of the Fraser River. It is connected with Clinton and Ashcroft by a good waggon road, over which communication is made once a week by stage from Clinton, connecting with the Cariboo stage. There is also communication by trail from Lytton, distant 40 miles. Nearest telegraph office, Clinton, 47 miles; railway station, Ashcroft, 60 miles; banking point, Kamloops. Pemberton Meadows is the only part of the district which needs no irrigation. The development of the Golden Cache mines an. other mine Golden Cache mines and other mine deposits found in Lillooet District will be the means of causing a very large amount of work in the mining line in the District.

Postmaster, T. Stothard.

In the Dominion Electoral District of Victoria and Provincial of Esquimalt, is a very pretty rural settlement on Vancouver Island, 15 miles from Victoria, in a westerly direction. The roads through the district are excellent. Big Lake, or Dr. Ash's Vines, Bilston Falls, Happy Valley, Pedder Bay, Rocky Point, William's Head, Sangster's Plains and Race Rocks, on which stands the lighthouse, are all in the vicinity. It is a most enjoyable section for picnicking, hunting and fishing, and a charming resort for riding and driving parties. Communication by stage; mails are received twice a week. The nearest railway station is Langford, on the E. & N. Ry.

### Slocan City.

Postmaster, R. A. Bradshaw.

Sixty-five miles north of Robson, at the south end of Slocan Lake, 32 miles south of New Denver, in the Dominion Electoral District of Yale and Cariboo, Provincial South Riding of West Koo-tenay, and Mining Recording Division of Slocan City. There are two papers published in the city, the "Pioneer and the "News." The principal communication is via Slocan Lake, which affords an excellent outlet to the north and thence via the C. P. R. Slocan Cit possesses many advantages that will it the near future cause a very raping growth and a vast increase in her present population. The chief industry like the whole of the inexhaustible Slocan country is mining. can country, is mining,

Postmaster, A. H. Coppen.

In the Dominion Electoral District of Yale-Kootenay, Provincial West Riding of Yale, and Mining Recording Division of Yale, is a station on the main line of the Canadian Pacific Railway, 114 miles from Vancouver, 12 miles from Yale and 15 miles from North Bend. The railway company have been doing some extensive bridge work in this vicinity. Mails arrive twice daily by the C. P. R. The population consists of about 250 whites. Indians and Chinese. Placer mining on the Fraser River and railway work are the principal industries of the people. The place is very mountainous, which opens a field for prospectors. There is also splendid trout fishing. Seven miles from here is Camp 16, where the C. P. R. have their stone quarry and where a large number of men are employed. A list of this camp is not given, as the men are constantly changing.

#### tickeen Div. of Cassiar.

#### Post Office, Wrangel, Alaska.

In the Dominion Electoral District I Vancouver, Provincial of Cassiar, and Mining Recording Division com-rised under three headings: McDame, aketon and Stickeen Division. lough during the last few years but omparatively little gold has been produced in that portion of the District, yet there are great opportunities for further development, both in placer and quartz, no attention having been paid to the quartz up to date. This year some parties have gone into that country to prospect for the latter with every chance of success. It is a question whether the granting with its conditions of a charter for the building of the Cassiar Central Railway will facilitate that further development which the country warrants; some say yes, while others express the opposite opinion. The quantity of furs brought out by the way of Stickeen continues year after year to be about the same, which is quite a trade in itself. The Yukon country, lying to the north of Cassiar, which is calling at present the attention of the world, will in all probability make the Stickeen River a very important portion of a route to the rich mines of the Yukon District, as the Teslin Lake, which is partly in Cassiar, can be reached from the head of navigation on the Stickeen River by what can be made a good road, distance about 140 miles. It is believed that river steam: ers can be run from the head of Teslin Lake to the mouth of the Yukon River if necessary, while the distance from the head of the Lake to the celebrated Klondyke does not exceed 475 miles. From Telegraph, on the Stickeen, good grass is to be found for animals that would be engaged in packing goods. Sheep, cattle and horses could be easily taken in by this route.

Agnell Albert, McDame Creek Agnell Albert, McDame Creek Callbreath Frank, Telegraph Creek Callbreath Jas, Telegraph Creek Callbreath J C, Telegraph Creek Campbell Jno, Telegraph Creek Campbell N, Telegraph Creek Foster Wm, Telegraph Creek Highland Jno, Telegraph Creek Highland Robert, Telegraph Creek Martin Jno, Telegraph Creek Martin Jno, Telegraph Creek McLean Hector, Telegraph ceek Tritchett Geo, Customs Officer, Glen-

#### WEEKLY NEWS-ADVERTISER, per year, \$2.00.

Strictly in advance. Mailed to any any address in Canada or the United States. To other countries the foreign rate of postage will be additional.

#### ADVERTISING RATES:

- CONDENSED ADVERTISING—Under the head of Notices, etc., running less than one week, 10 cents per line (Nonpareil measure) first insertion; 12 lines of Nonpareil to the inch.
- READING NOTICES—Twenty cents per line, unless contracted for by the 100 lines.
- DISPLAY ADVERTISEMENTS—Special rates for contracts running for three months or longer. All changes for display advertisements must be left at the office before 3 p.m. to ensure insertion the following morning.
- BIRTHS. DEATHS and MARRIAGES-\$1.00.
- Situations Vacant and Wanted, Lost and Found Notices, To Let and For Sale, two cents per word for first insertion, and one cent per word for each subsequent insertion.
- Where cuts mounted on wood are inserted, the office will not be responsible for the appearance of the advertisement. Solid metal cuts are always preferable.
- The advertiser will be held responsible for all typographical errors after first insertion, unless notice of same is given previous to second appearance.

## Salmo.

Postmaster, Robt. Ince.

In the Dominion Electoral District of Cariboo, Provincial South Riding of West Kootenay, and Mining Recording Division of Nelson, located on the Nelson & Fort Sheppard Railroad, at the junction of the North Fork of Salmon River, is the centre of numerous mining claims on the Salmon River, North Fork, Lost Creek, Sheep Creek, Pend d'Oreille, and their tributaries. It is distant from Nelson 35 miles, and from Rossland 52 miles; has daily trains northward to Kaslo, Ainsworth, riains northward to Kasio, Ainsworth, Filot Bay and Balfour, and south to Trail. Waneta, Northport, Rossland and Spokane. Salmo is located on a level prairie, and has an ample supply of timber, with a sawmill having a daily capacity of 25,000 feet, with abundance of water power for Jomestic and manufacturing purposes. The latest information from the district places the mineral locations surrounding Salmo at about 2,300 claims.

## Thomson's Landing.

Postmaster, J. W. Thomson.

In the Dominion Electoral District of Cariboo, Provincial North Riding of West Kootenay, and Mining Recording Division of Lardeau, is a mining village at the head of the North-West Arm of the Upper Arrow Lake. It contains a post office and hotel, and is surrounded by beautiful scenery and exquisite walks and drives. There is trout fishing on Salmon Creek and good boating on the Arm. It is connected with Arrowhead by steamer "Illecillewaet" and "Lardeau," running twice a day. A stage leaves daily for Trout Lake City.

## Thurlow

## Postmaster, Ino Crawford

In the Dominion Electoral District of Burrard, Provincial of Comox, and Mining Recording Division of Comox. Mails arrive Wednesdays and Saturdays by the S.S. "Comox" and by S.S. "Rainbow," Tuesdays and Fridays from Vancouver. Quartz mining is the chiet industry. Thurlow post office is in Shoal Bay, an excellent harbour, on the north side of Thurlow Island in Cardero Channel, and facing Phillips, Arm. Shoal Bay is the centre of the mining district which will soon be one of the most flourishing in the province. There are two stores and two hotels here, one the property of the Shoal Bay Trading Co., and the other, the Thurlow Hotel, adjoining the premises of Messrs. Archibald & Co., general storekeepers and traders; also the assay office of Mr. J. B. Farquhar. Being the distributing point for the mines in the Phillips' Arm, Fanny Bay, Frederick Arm, Val-dez Island, Estero Basin, Channe Island, Thurlow Island, Cardero Chan-nel, Longborough Inlet, and outlying points, this place is rapidly growing in importance. The mines are notable for the abundance of copper galena and iron pyrites, most of them carrying gold, and many assaying high in the precious metals. Very large developboo, Provincial of East ments are taking place, and experts Nearest te'eg aph and exprophesy a brilliant future for the district. The population is about one hundred.

## Ucuelet

## Postmaster, Jas Sutton

In the Dominion Electoral District of Vancouver, Provincial of Cowichan-Alberni, and Mining Recording Division of Alberni, a thriving settlement 110 miles from Victoria, at the western entrance of Barclay Sound, West Coast of Vancouver Island. Harbour four miles long, half a mile wide, safe and commodious anchorage for any size of vessel, opening out to Pacific Ocean. Abundance of fresh water. The C. P. N. Company's mail steamer "Teea" calls both ways, leaving Victoria eventen days. The land adjacent to the harbour, comprising about 60,000 acres, is suitable for all the requirements of agriculture. There are two wharves, two stores, a saw mill and a mission school. With all these natural advantages it is one of the most desirable fields for intending settlers on the West Coast.

## Union

#### Postmaster, J. L. Roe!

This town, the eastern part of which is called Cumberland, is finely situated on the foot hills of the Buford Mountains, about 500 feet above the waters of the Georgian Strait, and 60 miles north of Nanaimo. It is connected with Bayne Sound by a line of railway 13 miles in length. Its principal indus-try is coal mining. It turns out from 700 tons to 1,000 tons per day of the best steam coal. This is transferred over the railway to Union whar (Bayne Sound) to the ships, steamers and tugs, with scows awaiting to receive it. The fine coal is manufactured here into a good article of coke, which bids fair to grow into an immense industry of itself. Extensive bunkers are being constructed at the wharf in connection with the coal industry.

Union is the market place for the Comox farming settlement, and contains a population of 3,000. It has one large department store besides two general stores, four large hotels, two saw mills, two merchant tailoring establishments, various shops, such as dry goods, tin and hardware, metal harness, and saddlery, livery, jewellery, stationery, bakeries, barber shops, photograph gallery, brass band, a graded school, four churches, and a newspaper.

It has a fine water supply, which is taken from Hamilton Creek, a mountain stream: this water has just been introduced into the place by an incorporated company, at an expense of about \$30,-The town is divided into two parts-the Camp, and Cumberland, each having about the same population. Cumberland will be incorporated as a city on January 1st, 1898. A petition complying with the Act for the incorporation of cities, having already been filed with the Provincial Secretary. The Post Office will then be changed to Cumberland. It is reached by steamer from Victoria and Nanaimo every Wednesday. It is located in Nelson District, adjoining Comox District.

Abrams Jas, stipendiary magistrate Addison Robt, weighman Alexander Jno, labourer Allen Jas P, cabinet maker

## Ymir

Formerly Quartz Creek, a town on Salmon River, about 18 miles from Nelson, Township 17, Lot 1,242, 110ck 6, population between 500 and 600, is on the line of the Nelson & Fort Sheppard Ay., and has depot, telegraph and express offices. The Wild Horse Creek, 15 miles in length, on which are situated the Ymir, Blackcock, Wilcox, Elise, and many other promising properties. Porcupine Creek, on which are the Porcupine, Blue-eyed Nellie, and others; Barrett and Stewart Creeks with the Porto Rico, and Quartz and Bear Creeks, are all tributary to this town, as well as the Dundee mine.

A lumber mill operated by Blue & Co., is in operation, and a water works co., is in operation, and a water works system is under construction. The character of the properties varies greatly, the Dundee and Ymir being chiefly galena carrying large gold values, while the Porto Rico is a free milling proposition which so far has

given excellent results.
